

PRESS RELEASE

11th November 2021, Thursday

SYSTRA MVA's Contribution to Water World Ocean Park

Photo source: Ocean Park Hong Kong

The Water World Ocean Park launched its grand opening on 21st September, 2021.

The Water World Ocean Park covers a site area of more than 6,400sqm with 27 attractions in 5 zones. The brand-new, aquatic-themed park is the first year-round, all-weather seaside waterfront park in Asia. The world-class theme park features a unique design integrated with its hillside surroundings.

MVA as the Traffic Engineering & Pedestrian Modelling Design Consultant

MVA was commissioned by a Global Architect to prepare construction traffic impact assessment and traffic layout review to support the traffic-related deliverables of the new development.

MVA contributed to Hong Kong's world-class theme park from tender to design and building stage including detailed internal transport analysis to support the General Building Plan submissions with appropriate management measures in order to avoid the adverse traffic impact on the critical junctions during peak hours.

Key Scope and Solutions:

- Vehicular access arrangements and traffic generation
- Junction capacity assessment
- Parking Provisions
- Traffic signage and road marking
- Alleviate potential traffic impacts associated with the proposed development
- Construction Traffic Impact Assessment (CTIA)

- Traffic Engineering Inputs for Hoarding Plan Submission

About SYSTRA

SYSTRA is one of the world's leading engineering and consulting groups specialised in public transport and mobility solutions. For more than 60 years, the Group has been involved with cities and regions in order to contribute to their development by creating, improving and modernising their transport infrastructures. The magazine Engineering News-Record ranks SYSTRA among the top five international engineering firms specialised in 'Mass Transit & Rail', and among the 50 largest engineering firms in the world. Supported by its 7,300 employees, the Group's mission is to make travel more fluid throughout the world, in order to bring territories closer together and facilitate access to employment, education and leisure. A signature team for transport solutions, SYSTRA accompanies its partners and clients throughout the lifecycle of their projects.

About SYSTRA MVA

MVA, a SYSTRA Group company, is a global transportation specialist and leading market research consultancy with its operation established in Asia since 1970s. Its Asia headquarters, located in Hong Kong, operates through offices in Mainland China, Singapore, Thailand and other various project offices across the region. MVA offers a complete range of integrated solutions - traffic engineering, transport planning + modelling and smart mobility consultancy services. MVA work closely with governments, NGOs, operators, financial institutions, developers, architects, planners, engineers and contractors, in both public and private sectors. MVA is experienced in providing consultancy services from initial concept stages, through planning, feasibility, design and construction.
